**TO: FORTHNET MEDIA A.E.**

CC: Euroleague Properties S.A.

Dear Sir/Madam,

It was with great concern and surprise that we watched-along with thousands of European viewers- your post game show regarding Olympiacos bc and our Club's game in SEF last night, 3/3/2020.

As reasonably and in accordance to journalists' ethics one would expect, numerous and detailed reports should have been made concerning the unprecedented acts of violence and atrocities we faced in direct connection with the above mentioned game. Hooligans in hoods with accreditations by Olympiacos bc were threatening, cursing, hitting and wandering unhindered while causing damages, as Olympiacos had precisely described on its 3/3/2020 letter. However, instead of your journalists reporting on these shocking events informing the fans and applying the basic principles of objectivity, they deliberately concealed the truth!

What is more, after our multiple attempts to persuade them to follow the basic rules of journalism, they not only ignored us, but in the end, they decided to mention only that based on our...allegations (!!!) some...incidents allegedly took place during the game!!! It is beyond logic and mainly a blatant infringement of Euroleague Regulations, bona fide and Journalism Code regarding NOVA and, as you can all understand, it is something that has to be severely punished, so that in the future such behavior not be repeated.

We expect that the people involved have already been removed by such crucial posts that they cannot (and probably do not want to) serve conscientiously.

Yours sincerely,

For Panathinaikos BSA OPAP

Vassilios. G. Parthenopoulos
